

KONICA MINOLTA

The essentials of imaging

bizhub 164

Simple and straight forward copy, print and scan

Basic office system bizhub 164

bizhub 164, basic office system

More than a straight forward copier

The sturdy bizhub 164 impresses as a straight forward black & white copier for every-day copying tasks up to A3 size – but is more than that! Offering extra flexibility, it scores with standard direct printing and direct scanning capabilities and is the perfect device for workshops, warehouses, agriculture and crafts enterprises, all of whom will welcome its attractive price.

→ Copy made simple

- The bizhub 164 reliably handles all typical copy jobs with fast 16 copies per minute. It delivers the first copy within 8 seconds, even accepts A3 originals, and copies onto A3 size paper – perfect for circuit diagrams, newspaper clips and facing pages from books or magazines.
- Its clearly structured operating panel makes using the bizhub 164 a simple task. Easy operation and logical user guidance ensure a minimum of settings to produce simple copies. Thanks to its out-of-the box functionality there is virtually no learning curve, so that infrequent users also get their desired results right away. A convenient feature is ID-card copy, with which the front and reverse of any driving licence, identity card or similar can conveniently be copied onto a single sheet.

- Konica Minolta's Simitri® HD polymerised toner clearly depicts even the tiniest of characters and reliably withstands folding and creasing, extending the document life considerably. Also, the toner is completely smudge-proof and will not smear, even if the document gets damp! Even changing the toner cartridge on the bizhub 164 is quick and easy - another great advantage, we think you'll agree!

→ Configurations

bizhub 164

➔ Printing and scanning flexibility

- The bizhub 164 is not just a copier, but scans and prints up to A3 size. This makes it suitable for a multitude of jobs, such as printing offers, invoices or price lists, scanning brochures and equipment documentation (direct only - no networking).
- Flexible paper handling and the processing of a wide range of paper weights means that a variety of media can be printed on, for example thick (157gsm) paper for signage, and recycled paper.
- TWAIN-Scan makes archiving documents simple and straight forward, providing a real asset especially for small offices. It avoids accumulating hundreds of files over time. Any important document, like contracts or invoices, can be scanned and archived instantly.

➔ Save money and protect the environment

- With numerous energy-saving features the bizhub 164 is the perfect solution for anyone wanting to save operating costs. Functions like 2-in-1 or 4-in-1 and ID card copy help save paper and toner by placing two or more originals on a single sheet of paper. Stand-by and sleep mode reduce energy consumption further, whilst always ensuring quick availability of the copier with short warm-up times. Besides saving costs this also protects the environment.
- The bizhub 164 impresses with long-life components and high-quality workmanship. Thanks to the extended lifetime of Konica Minolta's proprietary toner, the toner cartridge needs to be exchanged less frequently. At the same time, the toner also helps save energy and therefore costs, requiring a lower temperature during the fixing process.
- The bizhub 164 delivers very low energy use and has secured the Energy Star Label.

Key features	Key benefits
Robust copier with basic functionality	Flexible copying, scanning and printing, even on A3
Easy operation	Instantly ready for action – virtually no learning curve
Low energy consumption	Eco-friendly and affordable to run
Compact size	Small footprint and low weight – finds its place in the smallest of corner's

- All specifications relating to paper capacity refer to A4-size paper of 80 gsm quality.
- All specifications relating to printing speeds refer to A4-size paper that is printed crosswise in multipage, simplex mode.
- The support and availability of the listed specifications and functionalities varies depending on operating systems, applications, network protocols as well as network and system configurations.
- The stated life expectancy of each consumable is based on specific operating conditions such as page coverage for a particular page size (5% coverage of A4). The actual consumables life will vary depending on the use and other printing variables including page coverage, page size, media type, continuous or intermittent printing, ambient temperature and humidity.
- Some of the product illustrations contain optional accessories.
- Specifications and accessories are based on the information available at the time of printing, and are subject to change without notice.
- Konica Minolta does not warrant that any prices or specifications mentioned will be error-free.
- Microsoft, Windows and the Windows logo are trademarks, or registered trademarks, of Microsoft Corporation in the United States and/or other countries.
